SCOTSDALE, Sept. 25.—The body
of H. R. Humphries was taken
from the home of R. J. Humphries,
grave street to the Methodist Epis-
copal church yesterday afternoon at
2 o'clock where it lay in state until 2:30
o'clock when the funeral services
were held. The funeral sermon was
delivered by Rev. Judson Jeffries,
pastor of the church, assisted by Rev.
J. E. Hutchinson, pastor of the Pres-
byterian church.

Methodist church. The body was taken
to the cemetery on a caisson
carried by the American Legion, con-
ducting the last rites there. A heavy
rain began to fall as the funeral party
left the church and the unprotected
Legion men were drenched.

Frick Veteran Dead.
Michael Newton, 70 years old, one of
the best-known residents of Everson,
died yesterday morning at his home.
Mr. Newton was a Frick veteran. He
is survived by his wife and the fol-
lowing children: M. J. Newton,
Wilkesburg; Mrs. R. S. Mooney, East
Pittsburg; Elizabeth, Anna, E. C. and
Thomas, Wilkesburg; James R. and
Thomas, at home. Funeral services
will be held on Tuesday morning at
2 o'clock at St. John's church, of
which he was a member, and in-
terment will follow in St. John's cem-
tery.

Mrs. Kestler Dies.
Mrs. Sophia Kestler, 84 years old,
died late Saturday evening at her
home on West Pittsburg street. Mrs.
Kestler was the widow of Jacob
Kestler who died July 7, 1920. She is
survived by the following children:
James Kestler, Stoupeville, O.; Mrs.
Sarah Campbell, Pittsburg; Miss Mary
Kestler, at home; and Mrs. Florence
McClary, Scottdale. Funeral services
will be held at the late home on
Tuesday afternoon at 2:30 o'clock, in
charge of Rev. J. O. Glenn, pastor of
the Lutheran church, and interment
will be made in the Scottdale cem-
tery.

Clayde Hemminger's Funeral.
Funeral services for Clayde Hem-
minger, who accidentally killed him-
self with a shotgun at his home at
Wooddale on Saturday morning, was
held at 10 o'clock this morning at
Paradise church. Interment was made
in Greenlick cemetery.

Children Entertained.

Special Sale on New Improved HOOSIER Beauty

Here is an event the women of Connellsville
and vicinity will long remember.

It not only introduces the New Improved
HOOSIER BEAUTY, the greatest Kitchen
Cabinet ever constructed—but does so under
such special conditions that it will pay every
woman to get the new HOOSIER and get it
now.

To start with, this newer and finer HOOSIER
is so far superior to the average cabinet that it
is scarcely proper to call it a Kitchen Cabinet
at all—it is in reality a real working system for
your kitchen. It will save more work and cut
out more steps than any labor-saving kitchen
device ever created.

Many special features never before incorpo-
rated in a Kitchen Cabinet have been develop-
ed in it. Yet, these features alone are not its

greatest merit. The big time-saving element
is in the wonderfully compact and efficient
arrangement. This new HOOSIER practi-
cally hands you the articles you need—as you
need them.

During this sale, we will send you a complete
Dexter Kitchen Set and the HOOSIER to your
home on the payment of \$1.00. Many other
new features are included in the new improv-
ed HOOSIER BEAUTY, and there is no extra
charge for the low terms. The low 1921 cash
price, set by the HOOSIER factory, prevails.

This new HOOSIER represents the best in-
vestment in dollars and cents that you can
make now. When you realize the time and
steps that the HOOSIER will save you, why
not decide now and come in and pick out your
HOOSIER?

HIGH SCHOOL

DEFEATS WEST NEWTON, 26-0

Connellsville's high school football team showed considerable improvement in its playing Saturday, and although lacking the punch it will take to round out a successful year, defeated the West Newton high school team, 26-0. The locals did not get working until the second half when three of the four touchdowns were scored.

West Newton had a light but aggressive aggression and a bunch of water, which accompanied the squad was there every minute pulling for their outfit. The visitors pulled a trick play in the last quarter which netted them considerable yardage, and the runner, O'Brien, got by everyone but "Little Ab" Solason. The quarterback made a perfect tackle and then Connellsville held for downs.

During the quarter, Connellsville scored when Jones, at fullback, raced around left end for 22 yards. On a line plunge he carried it across the goal. The wide receiver, Whiskey, got a kick to one side and the ball hit the upright of the goal post.

In the same quarter the Cokers pulled a pretty forward pass. Ned to turn on. The end, who had gone quite a distance down the field, had to extend himself to get the ball, but was unable to escape all the ticklers. The pass and run, however, netted 40 yards. The quarter ended with West Newton holding the team for downs within 15 yards of the goal line. The half finally ended with the ball in Connellsville's possession.

Solason received the kickoff in the second half and raced back 10 yards. May, who had substituted for Jones, hustled around right end and was 25 yards nearer the goal before being tackled. The run resulted in nothing, however, as the Cokers were held and lost the ball on downs, a fumble being responsible.

West Newton got a first down and then the locals held, receiving the ball when the visitors failed to make the distance. May was again given the ball and this time he went around the right end for 40 yards. Ned plunged forward for a touchdown, and again Whiskey failed at goal.

Connellsville kicked off, and West Newton for downs and May received the punt. He was given the ball again and once more carried left end for another gain, this time resulting in 30 yards. He got five more on the opposite side. The quarter ended and with the locals working at the opposite end of the field, Whiskey went across. He kicked the goal.

The locals again kicked off and held West Newton. As the visiting punter kicked the ball O'Brien intercepted and the locals were penalized 15 yards. The visitors pulled their "kick" and gained 40 yards. Again the locals held and received the ball on the 15 yard line. Whiskey went through for a first down and then May went around left end for 75 yards, this time resulting in a touchdown. Whiskey kicked the goal.

Here Coach Wine made several substitutions and they showed up well until a fumble was made and the game ended with the ball in West Newton's possession.

DONNELLY'S MANAGER ASKS UNREASONABLE PURSE TO GET FORMER UNIONTOWN BOXER

Johna Donnelly, the former Uniontown boxer, now of Newark, N. J., apparently has a world of respect for the hard work of Billy Carter, the local boy. A telegram from Eddie Summers of New York City, Donnelly's manager, to Duke Barry of the local club, convinces the latter that Donnelly is hiding behind demands which the local club considers out of reason.

Summers' telegram states that he should be pleased to accept the Carter bout for Donnelly, providing the local club guarantees Donnelly \$750 and two railway tickets from New York and return.

"It is quite evident," Barry says, "that Donnelly does not want any part of Carter's game. Johnny undoubtedly considers himself a lucky boy to win over Carter a year ago, when Billy made him know the curves for a time, and then to be robbed of the fight by the round being cut to save Donnelly. Had Carter not weakened himself by excessive training in that bout he surely would have defeated Donnelly. If Donnelly is so positive he can defeat Carter let him accept a percentage of the gate receipts of which he is only entitled to \$1,000. If this is agreeable to Summers, Donnelly and Company, I will get together the side bet in 24 hours. But what's the use of trying to get Donnelly to sign. In his own heart Johnny knows that Carter can defeat him the next time they meet."

Clean-Up Squad of War Service Bureau to Be in Uniontown October 5, 6, 7

The director of the Veterans' Bureau is very anxious to render full service to the disabled former service men. To that end an immediate attempt is to be made to clear up all awards and complaints concerning the awards of either compensation or training without further delay, and also to arrange for medical attention where needed.

A clean-up squad from the bureau will be in Uniontown on October 5, 6 and 7 at the American Legion home. This clean-up squad includes men who can assist in preparing applications for compensation, medical examination and evidence, and applications and decisions for training.

It is imperative that every former service man within the state who believes that he is entitled to receive some consideration from the government be made aware of this visit.

Any man known to you to be in need of any of the services should be told of this meeting. If perhaps you are suffering from a disability believed to have been incurred, increased or aggravated in the service, you should

High School Defeats West Newton 26-0

Continued from Page Six.
against Johnstown this week-end.

McDermott, who entered the last stages of the game, showed surprising ability in kicking the line. He may prove another big asset before the season grows old.

At times the Coker line was weak, especially in the first half, but better form was shown in the latter part of the game.

Phil Ozolsky played at guard against West Newton, and he seemed glad to be back at his old position. He is much stronger on the line than in the backfield.

The student body performed a snake dance through the streets and streets after the game. If they go wild over a West Newton victory what will happen next Saturday when Johnstown is defeated?

O'Donnell was doing some "stunts" before the game. He consistently dropped the ball between the bars from 35 and 40 yards.

The team gave May good interference on his long runs. It was a pleasure to see the line displayed in "taking out" a tackler.

When "Jockey" started on his 75 yard journey, Solson, called to him, "Come on, Joe," but before the words were out of his mouth May was away ahead, leading the field.

It was hard to tell Saturday whether Conneltsville high or "Turkey red."

Our neighbors across the way, Scottsdale, went to Greensburg Saturday and furnished a little practice for the team of the local townsmen. Elmer Carroll, Greensburg won, 49-0.

Uniontown and Scottsdale high schools ought to put up a good battle when they meet. Scottsdale won over East Huntingdon by a 6-0 score when the season opened and Saturday Uniontown defeated the same team, 12-0. The Alverton team is not above the average of a township high aggregation.

Norwin High lost to Wilkinsburg Saturday, 14-0.

Homestead Grays Clash With Coker Outfit Wednesday

The race in the major leagues toward a pennant is not altogether overshadowing the fact that the Homestead Grays are coming to Conneltsville Wednesday for a defeat at the hands of the Coker Independents.

The game will be played at Fayette field Wednesday afternoon and one of the biggest crowds of the season will be present to see the local team put on the national pastime for the season. The Independents have not appeared at home for two weeks and a strong attraction was secured to make the team extend every ounce of fighting strength it possesses.

SCOTTSVILLE SQUAD
BY GREENSBURG HIGH
SCOTTSVILLE, Sept. 26—Several hundred fans who journeyed to Greensburg Saturday in special trolley cars and by automobile, with two busses, saw Scottsdale High football team lose to Greensburg High, 49-0.

The locals were not a match in weight for the county team, who crossed the goal line six times. The greater part of the game the Scottsdale boys were in the defensive, but they fought desperately at every stage.

The lineup:
Scottsdale—L. E. Truxal
Gordon—L. T. Shearer
Murphy—L. G. Potts
Burgel—C. Pershing
Hurst—R. G. Mayers
Noon—R. E. Cuse
Palmer—K. T. Demoisie
Byrne—R. E. Coleman
Goldenson—Q. E. Cotnam

**Sick Horse Broke Down
Door to Go to Doctor**
William Saitken, a farmer of near Springfield, Ill., took his horse to a veterinarian a year ago when the animal was sick. The horse was taken sick again recently and Saitken called the veterinarian, Dr. A. E. Dickerson. When Dickerson arrived at the farm the horse died and was found kicked off its hinges and the horse was gone. The animal was found later standing at the door of the "horse hospital" in Springfield, where it had been treated last year.

FELT LIKE GIVING UP, SAYS KIDD

But Couldn't Ask to Be in Better
Health Than He Is Since
Taking Tablets.

"I was so weak I was nearly past going at the time I started taking Tanta, but four bottles have built me up to where I feel as fine as I did 20 years ago," said William Kidd, 1209 North Veto street, Pittsburg, Pa. Mr. Kidd was general foreman of the city highway work for 12 years, but is now retired.

"I had been suffering 11 years," he continued, "and I was simply broken down in health. I couldn't even walk down town without playing out and having to stop and rest. My stomach was all out of order and I wasn't able to eat much of anything. My kidneys bothered me a great deal and my back nearly killed me sometimes. Why, whenever I went to sleep over the pain across my back nearly took my breath away and all the time I just dragged around as weak as a kitten. I slept poorly, and of mornings was so dead tired I just felt like giving up. Well, sir, this Tanta beats anything I ever saw. It fit my case so well that today I feel like I've been made all over again. There is not a single one of my old troubles left and I have built up to where I feel as fit as a fiddle. I'm hale and hearty, don't get a pain or ache and could not ask to be in better health."

Tanta is sold in Conneltsville by the Conneltsville Drug Company and by leading druggists everywhere.

Miss Alice Jeanne Davidson, daughter of Henry P. Davidson of New York, whose engagement to Artemus R. Gates, war hero and former captain of the Yale football team, has just been announced. Miss Davidson is twenty-two years old and during the war qualified as a wireless instructor. Her fiancé was a navy aviator. He won several decorations for valor while serving in Belgium.

CARVING IS WORTH \$125,000
Mount Athos Artcraft Work of Five Monks Depicts the Life of Christ.

New York.—A wood carving valued at \$125,000 placed on public view, has been in the window of a Fifth avenue firm of silversmiths. It is a masterpiece of the life of Christ.

Five monks of the Brotherhood of Nicodemos worked on it from 1800 until 1914 in their monastery on Mount Athos, Macedonia. Father Germaine Allegretti, one of the five, monks brought it here, together with documents attesting its origin and his right to dispose of it.

The base is a solid block of boxwood, weighing nearly 500 pounds and the entire composition is 28 inches tall and 21 inches wide. Into this surface the monks have carved panel and picture designs, in high and low relief, involving hundreds of figures and scenes.

NEW PROCESS OF CLEANING COAL AND SAVING WASTE

Makes Low Grade Fuels Available for Efficient
Burning.

WORK OF MINES BUREAU

A process for cleaning coal that may make available great quantities of low grade coals and material now considered as waste at the mines has been the subject of laboratory studies of the United States Bureau of Mines, the results of which can now be announced.

The method, known as the Trent process, consists of retreating together powdered coal, water and oil. This produces a partly dissolved plastic fuel, called an amalgam. The oil picks out and joins with the coal particles, and excludes the waste and ash that remains suspended in the water. Then the amalgam of oil and coal can be freed from mechanically held water by working in much the same way as butter is worked.

Bureau of Mines officials confine themselves, in telling the results of the investigation of the physical phenomena of the Trent process which was developed by Walter E. Trent during and shortly after the war, but the commercial possibilities loom up large as a result of the findings.

"The field for investigation and development is large," declared O. E. Hoad, chief mechanical engineer of the Bureau of Mines, who was in charge of the tests. "Real benefits are physically possible by treating coal in this manner."

Coke, the basis of many industrial processes, can be made from non-coke coal by the Trent process. By using a heavy oil to make the amalgam and distilling to separate the coke with result. But if it is desired to obtain a clean powdered coal from the waste coal, an oil that can be distilled at a temperature below the distilling temperature of the coal is used in making the amalgam, and the oil is recovered and may be used to make more amalgam. And if the distillation is continued until a heavy pitch is obtained, a heavy mass that can be made into briquets and used like lump coal is the result.

"The distillation of an amalgam of coal and oil gives quantities of more valuable than the sum of the separate distillations of the coal and oil," explains Mr. Hoad. "This occurs because the distillates obtained as the result of distilling oil mixed with a finely powdered material are similar to those obtained by distilling under pressure."

One look at Fall wraps—and you'll
never be happy outside them

IT'S been a long time since coats and wraps were half as wonderful as our offerings find them this season.

Maryella—wonderful name of a wonderful cloth—bids fair to be the favorite coat material of the season.

And no wonder when it blends in so well with the rich furs in vogue and is such a warm, sturdy, masterful fabric.

Models this year are plain tailored or fur trimmed in such new shades as seal, nut brown, Sor-

rento and such staple colors as navy and black, Gerona, Veldyne, Normandy and Bolivia are some of the other materials.

As the ne plus ultra in wraps we cite the case of a model in Sorrento Maryella, belted, and trimmed in luxurious wolf—a very aristocrat among fashions.

Purses this year are back to earth, running from \$19.75 to \$225.

Every Conneltsville home can have at
least eight new blankets—with prices reduced
from 33% to 50% in the September Sale.

And S. P. Klinger, engineers of the Bureau of Mines, shows that the amalgam can be used for a gas-making fuel, and that gas-house tar emissions can be dehydrated by mixing with powdered coal, and that the amalgam can be retorted for further gas making.

"Graphite ore can be separated from the amalgam, and the amalgam can be used for a gas-making fuel, and that gas-house tar emissions can be dehydrated by mixing with powdered coal, and that the amalgam can be retorted for further gas making."

The new oil-coal fuel can be burned in forced draft, it may be heated and it can be stored under water, or forced through pipes by pressure, ducted.
